

Some Historical Ojibwe Names

S|Z

Note: please consult an Ojibwe elder who speaks the language before using any of these names for your children!

These names are 'coded' with a phonetic rendition of nineteenth-century government and missionaries' *transcription* of the sounds of Ahnishinahbæótiibway, Ojibwe, Cree and other languages. Our initial intent, as we began computerization of our data in the 1980s, was to make it easier to find a person whose name was spelled variously - using computer searches. The current 'sorting' is an artifact of Microsoft's programming. The 'alphabetic' spellings are historical; the [bracketed] information codes the source of the information: particular spelling of a person's name, their approximate birth date, etc.
