

INDEX to 1800+ Naturalization Records in Hubbard County, Minnesota

Peter Wilson, Minneapolis 2011

The first naturalization law was passed by Congress in 1790. Until the 20th century, an alien could become naturalized in any court of record. Most people went to the nearest one, usually a **county court**. The names and types of courts differ from state to state and during different periods. They include county supreme, circuit, district, equity, chancery, probate, or common pleas courts. Some **state supreme courts**, including Indiana, Idaho, Iowa, Maine, New Jersey and South Dakota, also naturalized aliens. Aliens who lived in large cities were sometimes naturalized in a **federal court**, such as a U.S. district court or U.S. circuit court.

The first law regulating naturalization was passed in 1790 (1 Stat. 103). Generally, naturalization was a two-step process that took a minimum of 5 years. After **residing** in the United States for 2 years, an alien could file a "declaration of intent" (called "first papers") to become a citizen. After 3 more years, an alien could "petition for naturalization." If the petition was granted, a certificate of citizenship was issued. These two steps did not have to take place in the same court. A "declaration of intent" *often* included the month and year of immigration to the United States. A few applicants listed the exact date & village of their birth on their final petition.

Although the "two-step, 5-year" rule generally applies, there are some exceptions: First, "derivative citizenship" was granted to wives and minor children of naturalized men. From 1790 to 1922, wives of naturalized men automatically became citizens. An alien woman who married a U.S. citizen automatically became a citizen; an American woman who married an alien **lost** her U.S. citizenship, even if she never left the U.S. in her life. From 1790 to 1940, children under age 21 automatically became naturalized citizens if their father was naturalized. Sadly, the names of wives and children are seldom included in declarations or petitions filed before 1906. For more information about women in naturalization records, see [Marian L. Smith, "Women and Naturalization, ca. 1802-1940," *Prologue: Quarterly of the National Archives*, Vol. 30, No. 2 \(Summer 1998\): 146-153.](#) Second, from 1824 to 1906, minors who had **lived in the United States 5 years** before their 23rd birthday could file both their declarations and petitions **at the same time**. There are examples of this in Hubbard County naturalization records. In some cases, their fathers had not been naturalized.

Old Hubbard County records were transferred to the Minnesota Historical Society 1981-1983. Most of the old volumes are still intact, because the state can no longer afford to microfilm & destroy seldom-used records, like bounty payments for gopher & wolf ears, although these might be of use to biologists for estimating the populations of various species during the years such records were kept.

Naturalizations from the state of MN are on microfilm, but are not complete. Most are indexed online by Ancestry.com. The MN Historical Society maintains both physical volumes & microfilm records. The most extensive **microfilm** records for Hubbard Co. are 35 reels of **assessments** for taxes for the years 1930-31, 1940-41, 1950-51 and 1960-61. Hubbard Co. **census** entries may be viewed at Heritagequest.com & Ancestry.com, etc. Hubbard Co. **birth & death** records may be viewed free at the MNHS site, <http://www.mnhs.org/index.htm>

HUBBARD County, Minnesota DISTRICT COURT NATURALIZATION RECORDS

All Minnesota naturalization records were microfilmed in 1993 because the records are unique, and of

widespread interest. Four Hubbard District Court Naturalization rolls at the MNHS can be studied (1) through interlibrary loan through your local library. Have your librarian call 651-259-3302, or (2) purchase these records for \$60.00 per roll from MNHS copy center at 651-259-3301. **Order SAM #181, Rolls 1-3 & SAM #181-I**, or (3) read the microfilms of Hubbard Naturalization Records now owned by the Hubbard County Historical Society, or (4) hire a local researcher to find and copy specific entries, which sometimes contain misspellings, for \$10.00 per naturalization record.

An INDEX of early declarations of intent, on reel SAM #181-I, has been copied by Ancestry.com for their site. Reels 1-3 contain images of full records. They are not digitalized. The images will show your ancestor's actual signature. Note: the village of birth was NOT recorded in Declarations of Intent to apply for citizenship.

Roll 1:

Declarations of intention, + indexes	1885-1951	Frame #

Applications for Oath of Allegiance [Naturalization by repatriation]	1943-1945 704

Roll 4: Index

More than 70 naturalization claims were denied for technical reasons, including incorrect forms completion and proof of duration of residence in the U.S. Some applications were dismissed for failure to pursue. Final dates of naturalization are not always given, either because the process was never completed or was completed in another jurisdiction. Some aliens died before they could be naturalized.

NOTICE: There are transcription errors and omissions in this list!

Variant spellings on documents are not all shown. Documents referring to the same person often give different spellings of names, places & different dates. Corrections should be made only from the actual certificates, not from indexes.

This database must be edited. It is based on several INDEXES, none of which are complete. I did not have time to read every entry on the reels. If I do not have the exact year of naturalization, I use the range of years covered in the book in which the event is recorded. I have given approximate years of birth for a few immigrants. If I could not read a letter I inserted ';' in its place. I do not understand the numbering system on the certificates and in the indexes, particularly those final papers indexed with a 'P'.

I have also added some readily available dates to this index. If only a year is given, consider it an approximation. Please contact us to submit more precise information, including exact dates & places of birth, marriage & death, with supporting evidence. If a place of birth is not certain, it may also often be determined from census data and from local records from the native country, but the latter is time-consuming & expensive. The Mormon International Genealogical Index (IGI) is very INCOMPLETE, especially in Roman Catholic jurisdictions, but a good place to start. Cyndi's list has hundreds of thousands of specialized sites to check.

Original records only hint how naturalization affected an immigrant's life. Other court records, newspapers, photos & letters help to complete the story. Readers are invited to contribute any data that might expand our view of their ancestor's lives. Family historians should examine ALL records relating to each ancestor. The single record they neglect to examine may contain a vital clue, found in no other record.

HISTORICAL NOTE:

Some immigrants indicated both Norway and Sweden or Finland and Russia as their birthplace. This is because Sweden lost control of both Norway and Finland during the century before settlers arrived in Hubbard County. The places in which they were born, many in Lapland, were often in another kingdom when they became adults. Semi-nomadic Lapp reindeer herders also crossed Finnish & Russian territories each year.

The Finnish War of 1809 ended Swedish rule of Finland, which had been the eastern half of the Swedish kingdom for centuries. Gustav Adolf IV of Sweden was deposed and his uncle Charles XIII was elected king. Charles XIII died childless, so in 1810 the Swedish Riksdag chose Danish Prince Christian August of Augustenburg as heir to Charles, but Christian died later that year.

At the time, Napoleon controlled much of continental Europe and made his brothers kings of conquered territories. To gain Napoleon's approval, in August 1810 the Swedish Riksdag elected Jean-Baptiste Bernadotte, a marshal of France, as heir to the Swedish throne. The Bernadotte family still reigns, but does not rule, in Sweden.

The parliament of Norway severed a personal union with Sweden under the House of Bernadotte on 7 June 1905. After threats of war between Sweden & Norway, negotiations headed by Kaiser Wilhelm II of Germany led to Sweden's recognition on 26 October 1905 of Norway as an independent kingdom. King Oscar II renounced his claim to the Norwegian throne, and, on 18 November 1905, Prince Carl of Denmark was invited to rule a constitutional monarchy in which the king's power had limits. Carl took the name of King Haakon VII of Norway.

During the age of family monarchies, villages scattered throughout Europe often were reassigned to a new kingdom simply by the marriages or wills of their aristocratic owners. Government was then a family affair, and "kingdoms" consisted of widely scattered family properties, which were difficult to administer. The age of family rule ended with WWI. Since then, nation states everywhere have imposed their rule over contiguous territories.

In 1906, a law was passed by Congress to open immigration to the U.S. for Norwegians, Swedes, Finns & Russians who were not satisfied with their "newly assigned" kingdoms. After 1905, Scandinavian immigrants to Hubbard County far outnumbered German immigrants.

Austria [AU], as place of birth before 1918, included Czechoslovakia [CZ], Bohemia [BH], Croatia [CR] and Hungary [HG]. Some immigrants indicated both the Austrian Empire & a nation within the empire as place of birth. Many born in Canada [CN], England [EN], Scotland [SC] or Wales also listed Great Britain [GB] as their place of birth.
