Author

[Powell, Ransom Judd, 1865-1937.](#)

Title

[Ransom J. Powell papers, 1843, 1896-1938 \[microform\].](#)

Description 15 microfilm reels.

Ojibwe genealogical and census records, land allotment rolls, transcripts of legal testimony, correspondence, notes, abstracts of title, plats, deeds, and other papers. They stem from Powell's involvement with the Ojibwe Indians of the White Earth (Minnesota) Reservation as (1) a member of a commission established by Congress in 1913 to investigate the blood status of Indian allottees within the reservation, and (2) legal counsel both to lumber companies seeking title to Ojibwe lands and to various individual Indians defending their allotment selections.

There is a substantial set of case files comprising testimony on the blood status of individual Ojibwe, Indian estate claims, and land titles and transfers; extensive files of family genealogies; a printed report on the blood status of White Earth landholders (the "Hinton roll"); several allotment rolls and supporting documentation; and White Earth Reservation plat books.

Roll 10 - White Earth genealogies - 1913 - 1915
